**SEROW**  
*Offroad Girls*

**SEROW250 of**  
*"Off-road small rider's specifications"*  
produced by DIRTBREAK

We made a custom SEROW to make it easier for small riders to ride. Not to mention the looks, the parts that off-road small riders think "Attentive to the needs" are customized.

The lowdown and handle position are compactly set so that it can be adapted to a small rider.

Operability is also improved by installing levers and grips that make it easier to control even with small hands.

We are particular about weight reduction such as the muffler and tail holder, and reduce the risk of falling by making the handling of the bike lighter.

Equipped with safe protective parts that firmly protect the parts if they are damaged even if they fall over at the touring destination.

**SEROW**  
CROSS COUNTRY

**Cross-country race specification**

**"SEROW 250 Cross-Country"  
with full-scale enduro**

A cross-country race specification customized based on the concept of the SEROW 250 used by Kenji Suzuki, DIRTBREAK promotion rider, for the 2016 All Japan Enduro Championship Hidaka 2 Days. We have a rich lineup of special parts such as wheels, suspensions, guards, brake parts, and mufflers, which are important points when customizing an enduro bike.
